Niinisaari

The island of Niinisaari is a unique place to visit in the lakeland archipelago of the Saimaa area. Even the method of transport is novel – you will need to take a ferry across the waters. The island offers plenty to do for visitors so it is a good idea to reserve plenty of time to explore the island's delights. You can visit the art gallery and the smithy's workshop, taste local delicacies and berry wines or just enjoy the unspoilt nature.

Fishing

It is easy to take a fishing trip from Niinisaari harbour. We take you to the best spots with our high spec Tracker Targa V-18 Aluminium fishing boat, which takes up to four anglers. A fishing trip takes 4 – 5 hours and the fishing method can be changed between spinning and trolling during the trip. You can expect your catch to include pike, perch or pikeperch (zander). The fishing trip package includes guide services, fishing equipment, a provincial lure fishing fee, petrol, safety equipment, soft drinks and water, catch of the day and VAT. (Customers need to have suitable clothing and be in possession of a state management fee for fishing, which can be bought through us for 10,50 Eur).
